

Time & Attendance Suite

Tired of paper time sheets?

Spending hours shuffling through paper time sheets? Combine BundyPlus Time & Attendance software with any G6-Series time clock, you'll have time sheets done in seconds saving you time and money!

How does it work?

BundyPlus does all the running around for you, collating employee clockings from your time clock(s) and saves them into a central database. Once in the database payroll administrators can easily assign ordinary time, over time whilst production managers can review employee attendance information in real time.

Need a SQL Database or loosing endless hours sorting then calculating employee's time spent on specific jobs? Combine BundyPlus Business Edition with any barcode enabled G6-Series time clock, you'll have employee billable time done in no time!
