

Next Generation TIME & ATTENDANCE SOFTWARE

Built for today's workforce

Empower employees with real time insight and easy access to business activities on the go with Easy Clocking Mobile

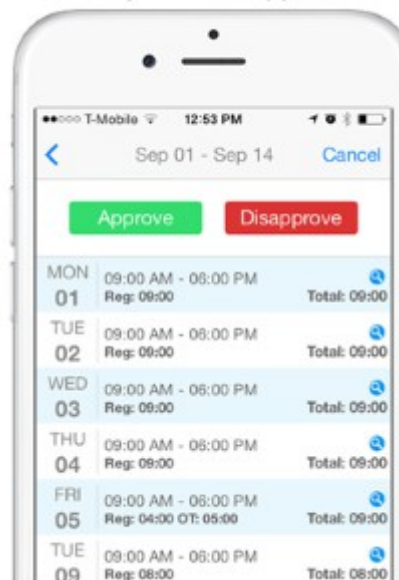

- ✓ Review & approve time card
- ✓ Clock in / out with GPS geofence
- ✓ View schedules in real time
- ✓ Request paid time off
- ✓ Track job costing
- ✓ Instantly see all employee data

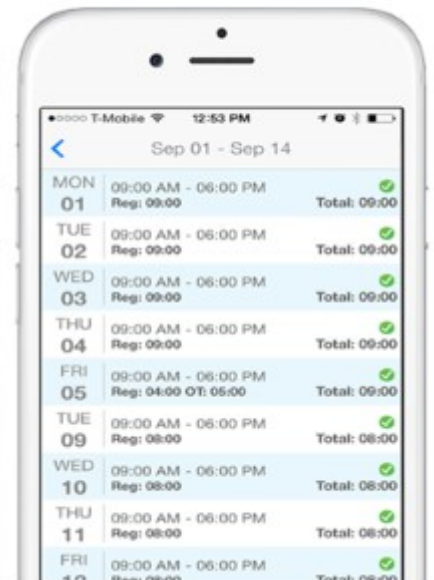

Timecard approval on the go

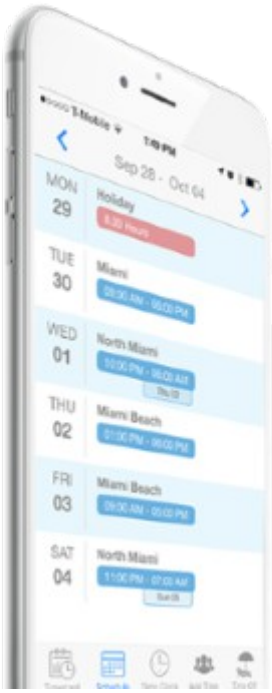

Give employees the ability to review and approve their timecards any time, anywhere.

Easily review & approve

Get instant confirmation

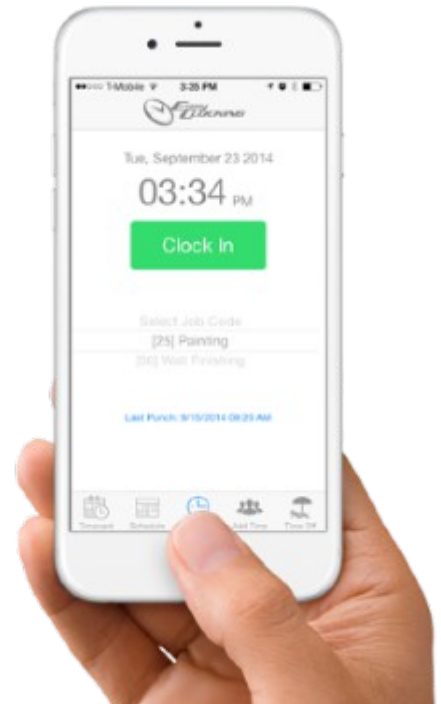

Employee scheduling

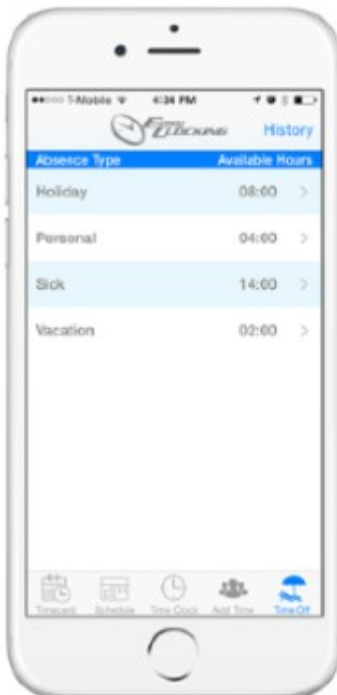

Eliminate schedule-related attendance excuses. Employee has 24/7 access to schedules and shift changes in real time.

Clocking with GPS restriction

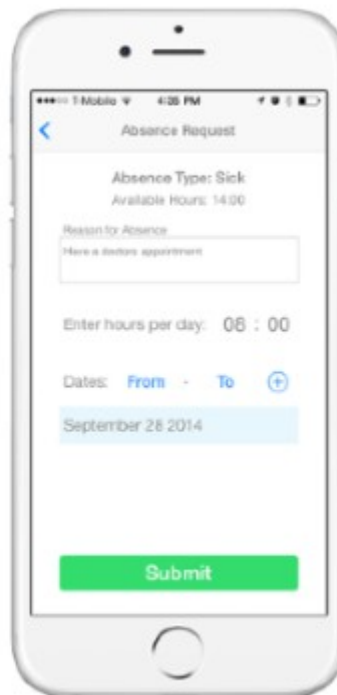

Restrict where employees can and cannot clock in and out from. By setting a geographical perimeter, employees are only allowed to clock in or out from the specified GPS location.

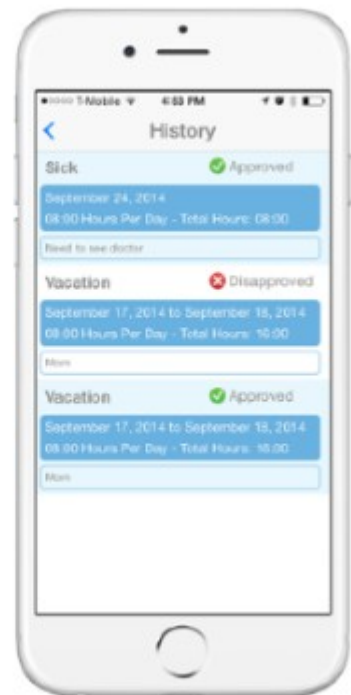

Request time off

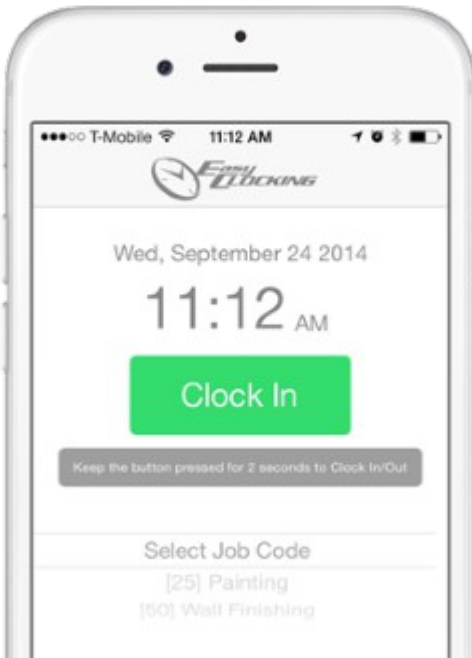

Easily see available hours

Requesting time off is a snap

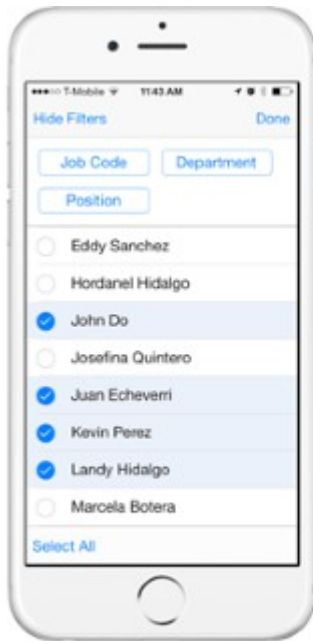

See history of all time off

Track job costing

Employees can select their assigned job codes, and clock in on their own mobile device

1 Select employees

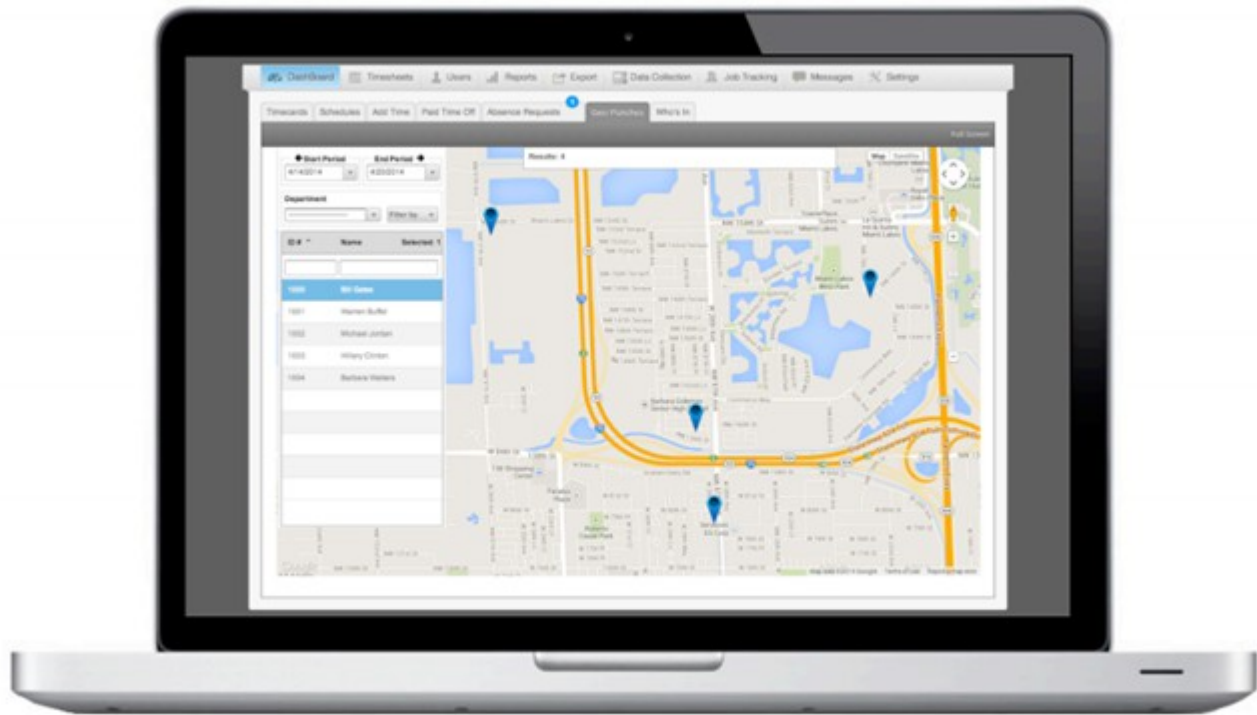

2 Select job code

3 Add time

Supervisor group punch

Empower supervisors with the ability to clock in employees on the go. Set policies to restrict by geo location, which employees, department, or location a supervisor has access to.

Bird's eye view

View a map of everyone who is clocked in at all your locations to better manage your projects and employees.
